

Exceleator Customers,

Be on the lookout! ExceleatorParts.com is getting a brand new upgrade this weekend.

We are excited to announce that we have heard your requests and improved our search functionality for an easier, more specialized user search journey. Other innovations revolve around the look & feel of our website, like our reinvigorated, modern homepage.

Please take a moment to check out our short training videos below:

- **Home Page Redesign** – This video shows the layout of our new homepage, with tips on how to navigate this new page. ([Click here](#))
- **Parts Catalog Multi Search** – This short video is a general review of the new multi-search menu in Exceleator. It highlights features like searching by part name or number and VMRS code, VIN/Major Component, Cross Reference, and VMRS category. ([Click here](#))
- **Cross Reference** – This video explains and shows an example of how you can look up cross references and alternate parts information in Exceleator. ([Click here](#))
- **Improved Commerce Parts Search** – This video will explain and show an example of the new features when searching for parts in Exceleator: Auto Suggest - Part Terminology search, VMRS search, Product Category search, and commerce part search within the VIN/Major component. ([Click here](#))
- **Product Category Search** – This video explains and shows an example of finding parts using a visual product catalog search in Exceleator. ([Click here](#))
- **VMRS Category Search** – This video explains and shows an example of how to find parts by obtaining the respective VMRS code or description in Exceleator. ([Click here](#))

For your convenience, a playlist of all videos above is available. ([Click here](#))

For any questions, please reach out to your Exceleator Dealer.

Thank you,
Exceleator Team
