INTRODUCTION

An Important message to Detroit Product Owners...

We are pleased to have you as a “Detroit Customer” and thank you for your purchasing our Data Hub[®] Products.
This booklet contains warranty information applicable to the Detroit Data Hub[®] Product you have purchased.

LIMITED WARRANTY ON NEW DETROIT DATA HUB[®] PRODUCTS

Terms of Coverage:

Uses

This warranty applies to the first retail purchaser and subsequent owners during the WARRANTY PERIOD of new Detroit Data Hub[®] Products; TRAC[®], ProDriver[®], Optimized Idle[®], Data Pages and Data Logger (referred to as Product) manufactured or supplied by Detroit Diesel Corporation and/or supplied by Detroit Diesel of Canada Limited or Detroit Diesel Overseas Distribution Corporation (all which are collectively referred to as Detroit) and sold at retail in the U.S. or Canada.

Defects

This warranty covers Product REPAIRS to correct any malfunction occurring during the WARRANTY PERIOD resulting from defects in material or workmanship.

Repairs

To obtain warranty REPAIRS, the defective or malfunctioning Product must be delivered within the WARRANTY PERIOD to an authorized Detroit service outlet and the outlet furnished with the purchaser's copy of the original sales slip on "over the counter" sales, the repair order on service installations or if purchased as "original engine equipment" proof of delivery date. Only new genuine parts or remanufactured parts or components supplied or approved by Detroit will be used. Detroit may at its discretion replace rather than repair the Product. A reasonable time must be allowed to perform the warranty repair after taking the Product to the authorized service outlet. The owner is responsible for the percentage of repair costs shown under WARRANTY PERIOD. Repairs will be performed during normal working hours.

PRODUCTION CHANGE

Detroit reserves the right to make change(s) in design or add improvement(s) on the products at any time without incurring any obligations to install same products previously purchased. Authorized Service Outlets reserve a similar right.

For the owner's records, the authorized Service Outlet will provide a copy of the Warranty Repair Order listing all warranty repairs performed.

CUSTOMER ASSISTANCE

Detroit has established a three-step procedure which customers should follow when experiencing a problem with any Detroit Product or Part. Detroit fully realizes that ultimately the customer's concerns will be resolved at the Distributor/Dealer level and therefore encourages customers to follow the procedure outlined below:

Step One

Customers should discuss the problem with a member of management from the authorized service outlet. Frequently, complaints are the result of a breakdown in communication and can quickly be resolved by a member of management. If you have already discussed the problem with the Distributor or Dealer Sales or Service Manager, contact the General Manager

Step Two

When it appears that your problem cannot readily be resolved at the Distributor/Dealer level without additional assistance, the Detroit Customer Support Center (CSC) should be contacted at 800-445-1980.

The information provided to the CSC will be forwarded to the appropriate Regional Product Support Manager. The customer will then be assisted by a member of the Regional Product Support Managers staff, depending on the nature of the problem.

Prior to contacting the CSC the customer should have the following information available:

- Name and location of authorized service outlet
- Type, make and vehicle identification number of equipment.
- Engine model and serial number.
- Engine delivery date and accumulated kilometers/miles or hours of operation.
- Nature of the problem.
- Chronological summary of engine's repair history.
