POLICY ON OWNER SERVICE

MAINTENANCE SERVICES

Proper maintenance and care of the engine will help achieve lower overall operating costs. Use of recommended fuels and lubricants and regular maintenance performed by competent service personnel will help avoid conditions arising from neglect which are not covered by Detroit Diesel Overseas Distribution Corporation (DDODC) new product warranties. The maintenance services described in the applicable Engine Operator's Manual should be performed at the time and/or kilometer intervals stated, by an authored DDODC Service Outlet or any qualified service outlet.

PRODUCTION CHANGE

Detroit Diesel Overseas Distribution Corporation reserves the right to make change(s) in design or add improvement(s) on the products at any time without incurring any obligations to install same on products previously purchased. Authorized Service Outlets reserve a similar right.

WARRANTY REPAIR ORDER

For the owner's records, the authorized Service Outlet will provide a copy of the Warranty Repair Order listing all warranty repairs performed.

CUSTOMER ASSISTANCE

The satisfaction and goodwill of the owners of Detroit engines are of primary concern to Detroit Diesel Overseas Distribution Corporations (DDODC) and its authorized service outlets.

As an owner of a Detroit engine, you have a complete network of DDODC service outlets worldwide that are prepared and anxious to meet your parts and service needs:

- Service by trained personnel.
- In many areas, emergency service 24 hours a day.
- Complete parts support, including Reliabil[®] remanufactured components.
- Sales team to help determine your power requirements.
- Product information and literature.

We recognize however, that despite the best intentions of everyone concerned, misunderstandings may occur. Normally, any such situation that arises in connection with the sale, operation or service of your engine will be handled by the authorized service outlet in your area.

To further assure your complete satisfaction, we have developed the following procedure to be followed in the event you have a concern that has not been handled satisfactorily.

Step One

Discuss your concern with a member of management from the authorized service outlet. Frequently, complaints are the result of a breakdown in communication and can quickly be resolved by a member of management. If you have already discussed the problem with the Sales or Service Manager, contact the General Manager. If your problem originates with a Dealer, explain the matter to a management member of the Distributorship with whom the Dealer has its service agreement.
